Join us for a live demonstration of IBM Case Manager

Optimize case outcomes with information, processes and people

Join us for this live, online demo to see how IBM Case Manager can enhance your organization's decision making ability, leading to more successful business outcomes. Harness structured and ad-hoc processes while providing the right information and analytics in context. Gain a 360 degree of your case workloads and improve customer service while cutting costs, driving growth and ensuring compliance.

IBM Case Manager unites information, process and people, helping your knowledge workers extract critical case information through integrated business rules, collaboration and analytics. Find out how IBM Case Manager can help you:

- Maximize productivity by integrating collaboration with dynamic processes
- Improve time-to-value through business user focused design capabilities
- Capitalize on established business process management facilities
- Empower knowledge workers with real-time and historical case metrics
- Provide a foundation for capturing organizational best practices
